TECHNICAL LIBRARY LIST – PAGES 37 – 78

LENDING LIBRARY LIST

INTRODUCTION

Material is held by the Society's Hon. Librarian:-

Ivor Thomas, 2 Garrick Gardens, Sholing, Southampton, Hampshire, SO19 9RB.

Members' attention is drawn to the following points, which should be borne in mind when consulting this library list:-

1. As the number of books published on industrial locomotives and railways is still relatively small, a larger than average portion of the library material consists of manuscripts, leaflets, brochures and press cuttings. These are difficult to classify and in some cases it has not been possible to list titles, authors, publishers, etc., with the precision usually attributed to a library catalogue.
2. Where locomotive and equipment builders have traded over a number of years under a number of similar names, relevant publications are listed under the last or current trading name of the firm.
3. In contrast, references to locomotive owners and operators, e.g. collieries, quarries, hirers, etc., are listed under the name of the owner or operator at the time the information was compiled.
4. Items prefixed "D" contain drawings or diagrams. Items prefixed "P" are pictorial albums, and items marked "C" are press cuttings. Items prefixed "N" are not suitable for postal loan - see Library Regulations.
5. Cuttings where subject matter is covered by an item in the Library List are generally placed with that item, though their presence will not normally be recorded. Other cuttings in which the main subject is a locomotive are filed in the Section 2 and 3 cuttings items whenever possible. Those featuring a range of locomotive makers, or in which the locomotive is not the main subject matter, are filed in the Section 6 and 11 cuttings items under the most specific heading.
6. Unless otherwise indicated, all items are in English or have English translation.
7. Much of the library collection has been donated by members, friends of members, locomotive builders and others. There are still sizeable gaps in the library collection and the Librarian will be pleased to receive further material likely to be of interest, or of use to members.

SECTION 1 LENDING LIBRARY REGULATIONS

Many of the items in the Library are not publicly published works and would be very difficult, or impossible, to replace. Because of their rarity or their bulk some are not suitable for postal loan. These items are prefixed "N" in the List but may be viewed at the Library, or collected from and returned to the Library in person. Members are requested to ensure that great care is taken of items at all times, and that they comply with the following regulations to facilitate an efficient service.

1. Quote the reference number of the item(s) being requested. Where no reference number is shown for periodicals quote the title and the issue(s) required.
2. No more than 3 items are supplied at any one time; however, the request may include more in preferential order (see para.3. below). In the case of periodicals one item is defined as one volume or the issues for one year. The Librarian will do his best to keep postal costs as low as possible but some items cannot be packed together and some loans may require more than one package. Despatch by means of Recorded Delivery or registered post may well be necessary where items are valuable or are not readily replaceable
3. Would members when writing to borrow Library items please indicate alternatives in case any item requested is not available, or state if the whole request should be held pending all the requested items being available, or alternatively whether those to hand should be sent with outstanding requests following later. This latter procedure would inevitably increase the postal cost. If the request is to hold until all items are available, notice of the probable delay, if there is one, will be advised if an S.A.E is sent with the loan request.
4. Return all items within 21 days of the day of receipt from the Library.
5. Ensure that all items are adequately and securely packed for the return journey.
6. Enclose the outward postage with items returned. This can be settled by means of a cheque made payable to Industrial Railway Society, postal order or stamps, the latter being preferred where small amounts only are involved.
7. Give the Librarian as much notice as possible and in any case not less than 14 days if you wish to make an appointment to visit the Library.
8. The Lending Library service is available only to members.

SECTION 2 LOCOMOTIVE BUILDERS AND WORKS LISTS

Ref. No.	Item Description
	Allrad-Rangiertechnik GmbH
1492	Brochure on Minilok locomotives
1623	Brochure on Minilok locomotives 1990
1651	Article on Minilok Locomotives - Rail Bulletin Spring 1990
	American Locomotive Co
4	Alco/GEC 660hp Bo-BoDE – specification
116	New locomotives – booklet June 1956
117	New locomotives – booklet October 1956
D 1668	Alco/GEC 660hp Bo-BoDE locomotive for Steel Company of Wales – scale drawing and article in Diesel Railway Traction June 1950
	Societa Ansaldo-Armstrong & Co
120	Article on the Company – Ingegneria Meccanica September 1954
	Aveling-Barford Ltd
D 1066	General arrangement drawing of Aveling & Porter 0-4-0WT G 1898
	Avonside Engine Co Ltd
C 585	Locomotives - various cuttings
D 1070	General arrangement drawing of Works No.1855
D 1638	B3 class 0-6-0ST - Railway Modeller October 1975
	W.G. Bagnall Ltd
5	Locomotive catalogue – c1950
7	Diesel locomotives and fireless locomotives - brochures 1950s
P 8	Bagnall Locomotives – A Pictorial Album of Bagnall Standard Gauge Locomotives (Baker/Civil) 2001
9	Locomotives for India – brochure c1950
10	Works list (Baker/Civil) I.L.S. 1984
C 407	Steam locomotives - various cuttings
518	Bagnalls for the Raj (locomotives in India) - Railway Magazine June 1990
702	Bagnalls of Stafford - history of the Company (Baker/Civil) 1973
D 719	2-8-2TT locomotives for Vicicongo Railway - Narrow Gauge & Ind. Railway Modelling Review Issue 7
1074	Locomotive Engineering as a Career 1951
D 1086	General arrangement drawing (applies to Works Nos.2257, 2276 and 2277)
D 1087	General arrangement drawing (applies to Works Nos.2355-57)
D 1090	General arrangement drawing (applies to Works Nos.2211-13, 2238-42 and 2321)
D 1092	General arrangement drawing (applies to Works Nos.1958 and 2243-44)
D 1093	General arrangement drawing (applies to Works Nos.2227-28)
D 1134	Dimension list for “Woto” Works No.2133 at BICC Erith
D 1417	Article/drawings of 2-8-2TT locomotives for Vicicongo Railway - Merioneth Mercury No.18
1443	Narrow gauge Locomotives and Rolling Stock 1910 - facsimile catalogue reprint
1503	Catalogue No.18 Steam, electric and internal combustion locomotives 1911
1504	Catalogue No.19 Light railway rolling stock and materials 1911
1520	List of industrial type diesel locomotives built by HL, RSH, WB and EES up to 1964
1687	4-8-0 locomotives for Sierra Leone Government Railway – Railway Gazette July 1944
-	A Narrow Gauge Legacy – preserved and First World War locomotives (Baker et al) T.N.G.No.156
	E.E. Baguley Ltd
87	Locomotive and rolling stock catalogue
695	Baguley Locomotives 1914-31 - history of the Company (Weaver) 1974 (I.R.S.)
D 1091	General arrangement drawing of 4wP Tractor
1498	Locomotives for Bass (3589/62) and Nigerian Ports Authority - Diesel Railway Traction July 1963
	E.M. Baldwin & Sons Pty. Ltd (Australia)
1057	Leaflet on diesel locomotives
	Baldwin Locomotive Works
11	The story of Baldwin-Lima-Hamilton - Company brochure

128	Rhodesian Railways 20th class Garratt - Railway Gazette 1955
129	New South Wales Government Railways AD60 class Garratt - Railway Gazette 1952
130	East African Railways & Harbours 59 class Garratt - Railway Gazette 1955
C 292	Garratt locomotives - various cuttings
C 420	Other locomotives - various cuttings
679	Brief history by Dr R.L.Hills (N.W.Museum of Science and Industry)
D 1067	Photostat blueprint general arrangement drawing 0-4-0ST
1344	Benguela Railway Garratt - Railway Gazette 1952
1554	The U.K. industrial 0-4-4-0 Garratt - Railway World November 1979
	Black Hawthorn & Co Ltd
23	Works list and brief history (Baker) I.L.S. 1988
833	Works list - typescript copy
1328	Etablissements Brissoneau & Lotz Diesel electric locomotives brochure 1950s
	British Thomson-Houston Co Ltd
462	Article on electrical equipment for Ruston and Hornsby type 165DE
463	Article on power equipment for British Railways Darlington built 0-6-0DE 13152-13166
464	Article on power equipment for Yorkshire Engine Co type D.E.2
465	50 Years of Electric Traction and the part played by BTH (Cansdale) 1946
18	Thos. Broadbent & Sons Ltd "Broadbent" battery mining locomotive brochure 1925
181	Brookville Locomotive Works Typed works list (Reddy) c1976
480	Peter Brotherhood Brotherhoods, Engineers - history of the Company (Leleux) 1965 and Company souvenir booklet 1967
131	Brown Boveri & Co Ltd Booklets on B.L.S. Ae 4/4 and S.B.B. Ae 6/6 types 1956 and articles on 50 c/s electric traction 1952 /1955
1337	7 brochures/articles on electric locomotives and railcars 1948-1956
1755	Brown Boveri & Cie, Mannheim Works List for locos Nos. 5001-5772 (1921-1966)
	Brush Electrical Machines Ltd
19	Brush-Bagnall diesel shunting locomotives - brochures 1950s
493	Brochure on Falcon locomotive 1962; brochure and literature on Kestrel locomotive 1968
494	Brochure and Diesel Railway Traction article on 2750hp Co-Co DE for British Railways 1963
1046	Brush 1365hp diesel electric locomotives for British Railways - brochure
1338	National and Mirrlees rail traction diesel engines – brochure 1950s
1339	Brush 1250hp diesel electric locomotives for British Railways - brochure
1340	Brush diesel shunting locomotives - brochures
1543	Brush 30 ton 200hp diesel electric locomotive - leaflet
1544	Brush 660hp Bo-Bo diesels for Steel Company of Wales - Engineer November 1957
1612	Locomotive brochure 1990s
C 1656	Locomotives - various cuttings
D 1666	Drawings of Brush-Bagnall 500 series locomotives for Steel Company of Wales
D 1667	Drawings of Brush-Bagnall 900 series locomotives for Steel Company of Wales
1694	Diesel and Electric Locomotive Works List (Toms) 1999 (I.R.S.)
1876	Pamphlet on 1730hp Co-Co DE locomotives for Rhodesian Railways 1962
583	Clayton Equipment Co Ltd Locomotives in use throughout the world as at 31/5/70 and 31/12/70 - leaflets
859	Locomotives in use throughout the world as at 31/12/70 - typed list

Ref. No.	Item Description
D 1129	General arrangement drawing of battery locomotive dated 10/8/67
D 1130	General arrangement drawing of "trammer" locomotive dated 14/7/66
1233	French language leaflet on Clayton locomotives
1234	2 photographs and cutting of battery locomotives
1300	Locomotives - c. early 1980s leaflets
1605	Brochure on diesel and battery locomotives c. mid 1980s
	Clyde Engineering Co Pty. Ltd (Australia)
D 1417	Drawing of Works No.81 - Merioneth Mercury No.18
1550	Advertisement in Railway Gazette January 1955
	S.A. Cockerill-Ougrée
296	Booklet on the Company c1956 and leaflet on current locomotives
1345	Brochure and 3 leaflets on diesel locomotives built under Baldwin licence
1346	2 articles on main line diesel locomotives - Diesel Railway Traction March 1954/April 1955
1606	Typed works list for S.A. John Cockerill
1607	Vertical boiler locomotives, including list (in French language)
	Commonwealth Engineering Pty. Ltd (Australia)

ARCHIVE LIST

PURPOSE OF THE ARCHIVE

The purpose of the archive is to provide safe and secure storage for records, publications and other documents that are in the care of the society and are judged to be unsuitable for deposit in our lending library and postal loan by virtue of rarity or frail condition. Suitable access arrangements have been made to enable members and such other persons as may be authorised to have access to material for research or study purposes.

ACCESS ARRANGEMENTS

The preferred method of access is for photocopies to be supplied either for sale or on loan. In some cases we may be unable to do this because of copyright considerations or agreement with the donor. With certain copyright items, only loans may be possible.

Members may request photocopies of items in the archive list, stating whether loan or purchase is preferred. Where the option is to purchase, remittance should be made with the order. The current price per sheet is 10p that includes a postage element. To ensure our costs are fully covered, there is a minimum charge of £1 per order. Discounts are available for bulk orders – send S.A.E. for a quotation.

In the archive list the number of pages that comprise an item is stated, together with the approximate page size. In the case of smaller formats, copies will be made at two pages to an A4 sheet and we reserve the right to make slight reductions in scale on larger formats (where clarity is unaffected) to make best use of paper.

Where loan of photocopies is required, please reimburse the cost of the outwards postage when the material is returned. In this respect and all others the conditions relative to lending library loans will also apply to archive copy loans.

The lists that follow comprise those items currently catalogued from which copies can be made as required. It is anticipated that other material will be added from time to time. The society will be pleased to accept suitable items by gift or bequest. Suitable items are defined as those relevant to the study of industrial and light railways and their locomotives. Pressure on storage space prevents the acceptance of gifts dealing wholly with public (mainline) railways or locomotives.

Requests for access to material in the archive list should be made to:

Mr.R.Pearman
Hon. Archivist

TECHNICAL LIBRARY

INTRODUCTION

The purpose of the library is to provide a service to those engaged in the restoration and preservation of industrial locomotives. Items in the technical library so far consist of service manuals, spare parts lists, drivers handbooks, and other related information relevant to Industrial Diesel & Petrol locomotives and diesel engines. The contents of the library are supplemented by material in some members private collections which can be made available upon request.

ACCESS ARRANGEMENTS

Access is by photocopy only. No loan of material will be considered in order to prevent damage to items from oil ingress found in most workshops. This restriction is necessary in order to preserve the collection, some of which is in mint condition.

Members may request photocopies of items in the list, enclosing remittance with order. The current price per sheet is 10p which includes postage (minimum charge is £1.00). It should be borne in mind that some manuals can exceed 200 pages, a quotation can be supplied upon receipt of an SAE.

The lists that follow comprise those items currently catalogued though it is anticipated that additions will be made from time to time. The Society will be pleased to accept any suitable items for donation which are relevant to industrial and light railway locomotives in order to expand the scope of the library.

Requests for items in the technical library and associated collections should be made to:

Mr H.Williams
Stamford House
Thornton Street
Barrow on Humber
Lincolnshire

British Twin Disc	Single Stage Torque Converters, Type No.1 & No.6, Limiting Operating Conditions	2@A4	S
British Twin Disc	Descriptive Leaflet 'for Operators'	5@A4	S
British Twin Disc	Drawing X-205888, Parts Drawing, Pump & Filter Group, Models 1-1500 & 6-1500	1@A3	S
British Twin Disc	Drawing, 1-C-1502 Parts	1@A3	S
British Twin Disc	Drawing 6-S-1503 Parts	1@A3	S
Sentinel	Drawing DL20133, Arrangement of Brake-Gear, 0-4-0 Heavy Diesel Hydraulic Locomotive	1@A2	S
Sentinel	Workshop Manual, Sentinel 325HP 0-4-0 (30/40 Ton SR Type) Diesel Hydraulic Industrial Shunting Locomotive, RRS13, Issue 2	98@A4	S
Rolls-Royce	TB 36, Input Spider - Oil Leaks, DF, DFR & DFRU Torque Converters	1@A4	S
Rolls-Royce	TB 40, Obsolete Service Bulletins	2@A4	S
Rolls-Royce	TB 41, Series 10000, 11500 & 13800 Torque Converters, Standardised Air Cylinder for Clutch Actuation	4@A4	S
Rolls-Royce	TB 42, DF, DFR. DFRU Converters, Embodiment of Individual Drain to Rear Seal	2@A4	S
Rolls-Royce	TB 43 DF, DFR, DFRU Torque Converters, Replacement Front Oil Lipseal	2@A4	S
Rolls-Royce	OEB 353, Modification 187, Introduction of Quill Shaft Supercharger Drive, 'C' Range Engines	6@A4	S
Rolls-Royce	OEB 354, Modification 202, Introduction of Stainless Steel Insert in Coolant Pump Impeller, 'C' Range Engines	3@A4	S
Rolls-Royce	OEB 355, Modification 203, Introduction of Strengthened Idler Axle, 'C' Range Engines	2@A4	S
Rolls-Royce	OEB 356, Modification 210, Introduction of Oil Control Piston Ring OE.36058, 'C' Range & SF65C Engines	3@A4	S
Rolls-Royce	OEB 357, Modification 212, Introduction of Piston Ring OE.35941, 'C' Range & SF65C Engines	3@A4	S
Rolls-Royce	OEB 358, Modification 207, Introduction of Keyless Compounder Shafts & Pulleys, 'C' Range Engines	5@A4	S
Rolls-Royce	OEB 359, Modification 204, Introduction of Inlet Valve Seat Inserts, 'C' Range Engines	3@A4	S
Rolls-Royce	OEB 360, Modification 209, Introduction of Water Cooled Air Compressor, 'C' Range Engines	3@A4	S

Makers	Title	No. of pages	
Rolls-Royce	OEB 360, Modification 209 Issue 2, Introduction of Water Cooled Air Compressor, 'C' Range Engines	4@A4	S
Rolls-Royce	OEB 361, Modification 211, Introduction of Slotted Link Dynamo Belt Tensioner, 'C' Range Engines	3@A4	S
Rolls-Royce	Obsolete Service Bulletins, 'C' Range & SF65C Engines	9@A4	S
Rolls-Royce	OEB 374, Introduction of Bearing Kit OE.41182 to Garrett AiResearch (Dowty) Turbocharger Type T.18, 'C' Range Engines	2@A4	S
Rolls-Royce	Parts List, Torque Converter Type CF11500 Series Ms300, TAS 1292	21@A4	S
Westinghouse	Drawing DM672-1, Self-Lapping Driver's Brake Valves Types W & WS [extracted from Catalogue Z411] [available elsewhere, not scanned]	1@A2	
Westinghouse	Drawing DM650-1, Westinghouse Air Compressor Type E25A [extracted from Catalogue Z411]	1@A2	S
Westinghouse	Drawing DB3180, Westinghouse Straight Air Brake for 150HP Diesel Shunting Locomotive [extracted from Catalogue Z411]	1@A1	S
unknown author	handwritten Data Sheet, possibly for Hudswell Clarke Locomotive	1@A4	S
Bostock & Bramley	SSS Powerflow Locomotive Gearbox, Size 1100, Double-Synchro Type, Drawing showing Positions of Gears in Various Speeds	1@A2	S
Bostock & Bramley	Drawing LP11700/S, Sectional Arrangement 1100 lbs.ft. SSS Powerflow Gearbox	1@A2	S
Bostock & Bramley	Technical Data Sheet, SSS Powerflow Locomotive Gearbox, Size 1050	1@A4	S
Hunslet Engine Co.	Drawing, Wiring Diagram, Reference 1955 [extracted from Spares Catalogue for HE 7001-4]	1@A0	S
Hunslet Engine Co.	Approved Lubricants, Reference 171 & 128 [extracted from Operating Instructions for HE 2067]	2@A2	S
Westinghouse	Drawing DB5963, Straight Air Brake Equipment for Diesel Locomotive for F C Hibberd [extracted from Cat. Z798]	1@A2	S
Westinghouse	Drawing DM650-1, Westinghouse Air Compressor Type E25A [extracted from Catalogue Z870 - differs from that in Catalogue Z411 slightly]	1@A2	S
British United Traction	Service Manual for BUT 460HP Traction Equipment, BR 50000 Series DMU's [scanned in two parts; Engine Section and the remainder]	338@A4, 7@A3	S
Rolls-Royce	Service Bulletin OEB 375: 'C' Range engines; Modifications Nos. 234 and 235: Modification No.234 – Introduction of balanced seal unit to existing cooling pumps. Modification No.235 – Introduction of re-designed coolant pump, incorporating the balanced seal unit	6@A4	S
Hunslet Engine Co.	Drawing 63781; Air Piping Diagram; 79RL7SQN P0075	1@A0	S
Hunslet Engine Co.	Drawing T No.17406; 300HP Hunslet Diesel Hydraulic Locomotive 0-4-0Type, 1435mm Gauge, Weight 35 Tonnes	1@A1	S
Amot Controls Corp.	Parts List, Model 2800 Safety Control, Form 501, Rev.2	2@A4	S
Rolls-Royce	Rolls-Royce Diesels, Workshop Manual, 'C' range & 'SF65C' 4, 6 & 8 cylinder engines. TSD 803 (12 th Edition) [scanned as three documents]	264@A4	S
REME	REME Inspection Report AD Locomotive BAOR (blank)	7@A4	S
Clatonrite	Clatonrite Self Sealing Weatherstrip, Fitting Instructions, Publication 1007	2@A4	S
