Provisional tram charter (not incl.) Bus transfer, Warszawa Airport afternoon departure

In general we will visit all possible plinthe locos. A chartered coach with toilet will be used throughout the tour. This tour is aimed specifically at rail enthusiasts so there will be little time for general tourism apart from Riga and Tallinn where we will try and arrange a preserved tram charter. Expected age profile means that we won't be looking at very early starts or late finishes. All railway visits are arranged in good faith, and we will make every effort to ensure a steam loco is available where possible. In the event of an unforeseen failure, an alternative arrangement may need to be substituted.

The tour land only price is £1865. This is based on an exchange rate of 31 CZK/GBP. Single room supplement £220. Please send an initial £200 deposit payable to LCGB to book a place. The initial cut-off date is **June 1st** for booking. Later bookings may be possible subject to hotel availability. We require 20 bookings to run.

Participants must hold LCGB or IRS membership. (Bookings accepted from non-members and temporary membership arranged). Travel insurance will be required.
